“The Northridge Museum” a Success Among Students and Parents

Every middle school student at Northridge Prep rang in the Third Quarter by researching, building and presenting exhibits for a public exhibition that they named “The Northridge Museum.” Presentations ranged in scope from Ancient Roman Architecture to the History of Aviation and even to a biographical study of JRR Tolkien. The Museum, which exercised Northridge Prep’s focus on the liberal arts and sciences, gave students a chance to work together in a hands-on way, and to learn how to engage in scholarly research under the guidance of their instructors. On Opening Day, students presented their research to approximately eighty visitors.

**Northridge Preparatory School is an independent college preparatory school for young men in grades 6–12 in Niles, Illinois. A Top Ten School in Chicago [Chicago Sun-Times], Northridge was also named a Top 96 School in America [US News & World Report].*
